CITY OF KEARNEY **PRESS RELEASE** ***For Immediate Release***

Issued Date: August 19, 2019

Point of Contact: Michele Hill, GIS Coordinator, (308) 233-3250

New Aerial Photography available on City GIS Map

In April of this year, the City of Kearney acquired new aerial photography for the city limits and the two-mile jurisdiction area. The new aerials are now available on the City's webpage through HomeBase, the web mapping application developed for the City, by Beehive Industries. To access HomeBase go to the City of Kearney web page at www.cityofkearney.org and click the "Maps/GIS" icon on the left side of the home page. The City of Kearney, along with Buffalo County, gets new aerial imagery every three years. In addition to the new aerial photography, information on zoning, subdivisions, utilities, school district boundaries, and what day your neighborhood's trash is picked up can be found on the City's GIS Map.

Included with the new aerials is new Pictometry images which shows three-dimensional aerial photographs in high-resolution. To access Pictometry, navigate to the area you want to view, click on the "Pictometry" link and a new viewing window will appear. You can then select and change the direction you are viewing by clicking on the compass in the upper left corner of the window.

Along with the general public; contractors, developers, real estate professionals and public safety officials can utilize this new information in their fields of work. All users are encouraged to contact Michele Hill, GIS Coordinator, (308) 233-3250 with questions they have or assistance they need with Pictometry or any HomeBase function.

Check out our web site at www.cityofkearney.org.

We are sending this News Release as a service to the news media and citizens of Kearney.
