City of Kearney Parks Department Launches Statusfy Notification System for Field and Facility Updates

The City of Kearney Parks Department is pleased to announce the implementation of Statusfy, a new notification system designed to provide timely updates regarding outdoor sports field and facility closures due specifically to weather conditions or maintenance issues.

This new system will improve communication with the community on the Kearney RecDesk site or by delivering real-time updates directly to the residents, coaches, athletes, and visitors that opt in to receiving the information. Rather than calling multiple offices or checking various websites for current conditions, users can now receive accurate information as soon as updates are made or just check the website for the updated conditions.

Statusfy allows individuals to subscribe to specific fields or facilities and receive notifications as soon as updates are made. This targeted approach ensures users receive only the information relevant to them. Statusfy will streamline communication and help everyone plan activities with confidence.

Community members can learn more about the Statusfy app and how to sign up by visiting: <https://kearney.recdesk.com>, where you will find the Field/Facility Conditions tab.

For additional information, please contact the City of Kearney Parks Department.

Check out our web site at www.cityofkearney.org.

We are sending this News Release as a service to the news media and citizens of Kearney.
