

CITY OF KEARNEY **PRESS RELEASE** ***For Immediate Release***

18 East 22nd St.
Kearney, NE 68848-1180
(308) 233-3214
www.cityofkearney.org

Issued Date: July 25, 2017

Point of Contact: Dan Lillis, Stormwater Program Manager, 308-233-3273

Post-Construction Stormwater Management

The City of Kearney Public Works Department will be conducting an informative session regarding the upcoming Post-Construction Stormwater requirements effective September 1, 2017. All developers, land designers, and civil engineers are encouraged to attend this information session.

As per Chapter 9, Section 1626 Ordinance of the Codes of the City of Kearney, Stormwater Treatment Facilities (STF's) must be accounted for on any proposed redevelopment and new development projects that have not already submitted a complete preliminary plat or building permit for approval. Proposed redevelopment and new development projects that are exempt from treatment are those that have already submitted a complete plat, preliminary plat or building permit for approval prior to September 1, 2017.

Topics of the session will include sections on minimum site standards, platting and site plan review, maintenance of controls, tracking controls, and inspection and enforcement. This will also be a good time to discuss any NDEQ permitting questions with the Stormwater Program Manager. The City of Kearney feels that with your help and participation we can make the transition into full compliance with EPA regulations easier on everyone involved.

Please mark your calendars for August 10 at 1:00 p.m. or August 17 at 9:00 a.m. Each session will cover the same content. The information sessions will be located in the upstairs conference rooms at the Kearney Public Library. Please respond to stormwater@kearneygov.org with a headcount of those attending and which session will be attended.
