Kearney Solar Complex Energy Production Dashboard Now Available

With the recent completion of Kearney's new Solar Complex, the public now has access to a free online tool which allows users to track the hourly energy production produced at the facility. This user-friendly dashboard will display the amount of energy produced throughout the day on an hourly, monthly, yearly and lifetime basis. The dashboard also includes a feature that displays how much of other natural resources Kearney residents have saved by going green with solar.

The dashboard can be accessed on the City of Kearney website, www.cityofkearney.org, by following this path "How Do I" > "View" > "Kearney Solar Energy Production".

Check out our web site at www.cityofkearney.org.

We are sending this News Release as a service to the news media and citizens of Kearney.
