CITY OF KEARNEY **PRESS RELEASE** ***For Immediate Release***

Issued Date: February 23, 2018

Point of Contact: Rod Wiederspan, Director of Public Works, 308-233-3211

Kearney LED Street Lighting

To improve street lighting efficiency and reduce energy and maintenance costs, the City of Kearney, in partnership with Nebraska Public Power District, is converting the current high pressure sodium streetlights with LED lighting. This effort will result in a direct cost savings to our community. Lights will be converted to LED when existing street lights are not in working condition. Citizens will notice the new lights as they provide a brighter and whiter light with limited glare resulting in improved roadway visibility.

Approximately 300-500 street lights per year will be replaced with the goal of replacing all 3,600 street lights in the city over the course of the next few years.

To report street light outages please contact NPPD at 1-877-275-6773 or customerservice@nppd.com.

Check out our web site at www.cityofkearney.org.

We are sending this News Release as a service to the news media and citizens of Kearney.
