Every day, approximately 10,000 Baby Boomers will turn age 65. While age is not the only determinant factor of driving ability, research has shown that around the age of 65 drivers face an increased risk of being involved in a vehicle accident. Join CHI Trauma Outreach Coordinator Tracy Dethlefs and Occupational Therapist Lauren Erickson for look at some common factors that may affect driving proficiency and what we can do to maintain good driving habits.

This presentation will be held on Wednesday, June 12 at 11:00 a.m. at the Kearney Public Library. No registration is required. Please call Kearney Public Library at 308-233-3282 for more information.
