

OVERVIEW

- \$5.00 per 30 minutes of laser time
- library provides selection of materials or bring your own supplies (all materials must be approved by staff)
- supports SVG, PDF, JPG, and PNG

INSTRUCTIONS

Staff will log you in to the app

Create a new design or upload files or trace design

Choose material or camera will scan QR on material

Finish designing and design placement

Enter settings to choose engrave, cut, score, or ignore

Click print (the machine will calculate the time required)

If time is approved, press blinking teal button on the

Glowforge to begin

Repeat as needed

FINDING/CREATING FILES

The library subscribes to the Glowforge design catalog and many of those designs are available for your use with our subscription. You can also find files online.

- www.thingiverse.com (pre-made files)
- www.etsy.com (pay for files)

You can make your own files using whatever software you are already familiar with. Please consult with staff on what file type would be best for your project. (svg, pdf, jpg)
