Card

Did you know one die can make many different shapes? See how you can fold the paper first and then make special cuts to expand the possibilities of every AccuCut die you own!

Paper Chain

1. Select a die—a symmetrical design works best.
2. Place end of a long strip of paper on the die,

covering entire shape.

3. Accordion fold paper, so folds are slightly inside of blades on side of shape.
4. When making last fold, edge of paper should cover blades on side of shape.

5. Roll through machine with die **FOAM SIDE UP**.

6. Unfold resulting chain of shapes.

Use shapes as borders or leave shapes slightly folded for self-standing designs. Cut a chain of paper dolls, draw faces and names on each figure and make a "border of friends" to decorate a room!

Apple #1 (79-A1300L)

The last edge of paper should cover blades.

Step 1

Paper covers entire shape on die.

Step 2

Step 3

Step 4

Stand-Up Shapes

1. Select a die.
2. Fold paper in half.
3. Fold sides of paper in opposite direction

of first fold, 1/4" from first fold.

4. Place folds at bottom of shape on die, leaving bottom blade uncovered. (This allows shape to remain connected.)

5. Roll through machine with die

FOAM SIDE UP.

6. Unfold letter or shape, flatten fold at bottom, and glue top edges together.

Hang over a string to create banners. Combine letters to form names, words and sentences. Use stand-up shapes to make scenes from books.

Paper

Step 1

Step 2

Step 3

Step 4

Globe #1 (79-G1360L)

Eight-Shape Ring

1. Select small or mini die.*
2. Place 8 1/2" x 11" paper on table vertically.

Fold into 8 1/2" x 5 1/2" rectangle.

3. Fold again into 4 1/4" x 5 1/2" rectangle with folds on bottom and right.

4. Bring left bottom corner up at an angle until it meets right edge. Fold.

5. Place paper on die with folded point at bottom of shape. Leave side blades of shape uncovered.

6. Roll through machine with die

FOAM SIDE UP.

7. Unfold the ring of shapes and flatten.

This fold yields a small eight-sided circle of shapes.

*For larger ring, use bigger paper and large shape.
